Regarding the Gubernatorial Situation at Charleston. The Democrats Revolationists.

The Democrate Revolutionists.

Pitisburyh Commercial Ganite.

The hope that enough Democrats would be found in the West Virginia Legislature to prevent the consummation of the revolutionary purposes of the majority have been disappointed, and the State is on the verge of revolution. The constitution requires that the Speaker of the House shall open and publish the vote on State officers and that the Joint Assembly shall declare the result. Knowing in advance that a compliance with the terms of the constitution would result in scating General Goff as Governor, the Democratic majority passed a resolution to stop reading returns at a point at which the result indicates the election of Judge Fleming.

publish the vote on State officers and that the Joint Assembly shall declare the result. Knowing in advance that a compliance with the terms of the constitution would result in seating General Goff as Governor, the Democratic manager of the constitution and protest publicans except to cite the express terms of the constitution and protest against their violation. This protest was treated as so much idle wind. When the Republicans asked the poor privilege of having their unavailing protest placed upon the journal of the House, it was denied them. The Democratic members would not make a record of their own infamy in words, but they have already blazoned to the world their utter contempt for law and total disregard of their official oaths. The people of the State are very much excited over the threatened revolution, and the danger of a dual government looms up in the near future.

every proposition that looked to a lawful announcement of the decision of the
people is in keeping with their history
and acts for the past thirty years. A
parallel can only be found on record in
the Virginia Legislature of 1861, when
the bourbon Democracy of that State
forced it to seede and into rebellion
against the Government of the United
States. \* \* The men who figure
most prominently in our State's disgrace
are the same who were disloyal in 1861.
Kenna, Senator Flournoy, Lively, Price,
Spriggs and others who have led in this
crime against the Constitution, were
lately in the rebellion and are animated
by the same spirit that dictated their
course in 1801. Now, as then, they see
the power of the State departing from
them, and in their desporation would
involve the country in war if by so doing
they believed they could succeed. Their
course is revolutionary and tifey ought
to be again crushed, perhaps not by war
or force, but by a more emphatic expression of the people at the polls, than
has hitherto been made.

The Country Watching Them.

The Country Watching Them.

Philadelphia Press.

The West Virginia Democrats are forcing their programme through the Legislature with a brutal indifference to law and justice. By a majority of one on Wednesday they passed a resolution refusing to count the vote on Governor in those counties in which there is a contest. All these disputed counties are Republican. The contests were begun by Democrats for the purpose of furnishing pretext for throwing out enough Republican votes to detat General Goff, and it is evident that the Democratic Legislature is not going to besitate about fulfilling its part of the outrage programme. If the Democrats of West Virginia imagine that because there has been little comment on their proceedings that the public does not understand their intention of overriding the expressed will of the people they are mistaken. The true nature of the contest is well known and it will form one more count in the indictment the people have drawn against the Democracy as\_the party fraud.

Brilliant Statesmen.

Cumberland News.

The West Virginia Democrats have originated a new idea in political rascality. It does not quite equal the murderous one now threatening to become epidemic in the South, of killing Congressional contestants, but is quite as unique. Cannot be Justified.

Martinaburg Independent.

No Delegate to the Legislature can justify himself in voting for the resolution prohibiting the Speaker of the House from publishing the returns of the election for Governor. It is a plain, open, palpable violation of the Constitution of the State, and there can be no justification before the people for any such act.

Goff's Duty.

Gen. Goff's duty is plain. He should take the oath of office and be inaugurated as Governor on the 4th of March. He will be upheld in this by a majority of the people of the State. No proper and rightful means should be left untried to make effective the voice of the majority that elected Gen. Goff Governor of West Virginia.

Must be Innugurated.

Moundsville Herald,
Why should Goff not be inaugurated
on the 4th of March? Should he be
kept out of an office to which he has been elected merely on a partisan clain of fraud? A mere claim actuated by mixed political greed and hatred does not establish any fact.

Let 'Em Kill Themselves.

If the Democrats of this State will If the Democrats of this State will continue to persist in the operation of butting their brains out, it is no concern of ours. We can stand it. It fills us with ghoulish glee to see them passing into "innocuous desuetude," "Whom the gods would destroy they first make mad."

Original Tactics.

Pittisburgh Dispatch The West Virginia Democratic method of carrying a disputed election by counting only the votes that will elect the Democratic candidate, has the merit of simplicity. It is less trouble than killing the opposition candidates,

Shelton's Bombshell. Shelton's bombshell charging attempted bribery committed upon him in his county of Lincoln appears to have been only loaded with sawdust and won't go off. It is intimated that it was a brother Democrat who thought of buying him out and not a Republican at all.

Any one may predict the result. The State Government will soon be under the control of the Republican party. In the school of disaster only can some people learn wisdom.

Is it any wonder that the Democratic party has lost its grip with such a corrupt organ as the Register to fight its battles.

Speaker Woods' Decisions.

Speaker Woods of the West Virginia house is gaining a national reputation as

a parliamentarian. He ruled Thursday at what was intended to be a joint session of the House and Senate, that in-asmuch as members were in and about the hall, there was a quorum present. The Republicans immediately left the chamber. The remainder tried to adjourn, but as there was neither a quorum nor any rule by which attendance could be enforced, they found themselves between hawk and bussard. Governor Wilson has put his foot down on Senators or anybody else copying canvassed returns. Such copying would make future fraud difficult.

A Small Hole to Crawl Out Of.

West Virginia Democrats have given away their case, or rather their lack of case. Their joint caucus in the Legislature has decided to refer, without debate, to the joint committee appointed to investigate the Governorship contest, all the disputed county returns. Judge Ferguson, one of the foremost lawyers of the State, as well as a lifelong Democrat, is disgusted, and says his party's action is plainly contrary to the Constitution.

The stock market to-day was quiet, and while there was an inclination to advance, it was action is plainly contrary to the Constitution.

Reference to a committee that is duly packed in advance to decide in favor of its majority party is a notorious farce. The real purpose is to shut off all debate now, and then it will be easier to accept the report of the committee without debate.

Why wait for the committee to have the returns and contests referred to it?

A Serious Thing.

A Serious Thing.

Pittaburgh Commercial Gazelte.

The Democratic members of the West Virginia Legislature have been rearing and pitching for several days past on the edge of a precipice. It is a serious thing to overthrow constitutional government and invite anarchy. The Constitution requires that the returns of the election shall be opened and published, but the joint assembly, are trying to evade and nullify that requirement. They know that General Golf has a majority of the votes for Governor on the face of the returns, and to open and publish the fact would demonstrate his right to the office. This the Democrats are struggling frantically against, regardless of the fact that they are flying in the face of the organic law.

"When I came to my desir last Wednesday morning," said John Wanamaker, the merchant, "I was naturally thinking about the Christmas trade which we had. We did a great deal of Christmas business in this store this year. During the ten days previous to Christmas our sales hovered about \$100,000 a day. The grand total for the ten days falls only a few dollars under a million.

"I spend \$5,000 a week in advertising, and I pay a skillful man—a former newspaper editor, and a good one—\$1,000 a month to do it for me. I make money by it. Advertising is the leverage with which this store has been raised up. I do not see how any large and successful retail business can be done without liberal advertising. I advertise in every issue, except Sunday, of every daily paper in Philadelphia. Continuous advertising, like continuous work, is the most effective."

Porkersbury Journal.

The object of the Republicans in leaving the joint assembly without a quorum was to enter against the whole proceedings a protest, which the Democrats were bound to recognize. That a continuance of the count and a declaration of the result was had without a quorum being present detracts nothing from the Republican position and only adds to the liegality of the Democratic proceedings.
